

IN DETAIL

Events with distinction

Kiwi owned and operated, Kim Chan Events is founded and run by Kim, who has had a passion for arranging flowers since childhood. After owning a string of successful businesses, here and in Hong Kong, Kim returned to her hometown, Christchurch to start Kim Chan Events.

“I love to work with people, to help them achieve their vision. Some just want a little help here and there, while others want to hand over the entire project or management of their event to me. I love to create something beyond the expected for them.”

The talented team of designers at Kim Chan Events can take your ideas and concepts and use their creative skills to turn them into something truly memorable for your wedding day.

“Our clients are continually amazed at what we come up with. Regardless of your project brief or budget, we welcome the opportunity to turn your vision into reality and to delight you with the results.”

A memorable event Kim worked on was a unique corporate transformation experience. Kim was tasked with transforming a three thousand square metre warehouse into a cross between a mission statement, interactive museum, and corporate roadshow.

The process took about five weeks, and Kim was an essential part of the wider team, translating brainstorming sessions into tangible designs. She coordinated painters, builders, audio-visual technicians and a variety of specialists in order to achieve the vision.

For over 25 years, Kim and her team have worked with a diverse range of clients, from planning and decorating weddings for local and international couples, to client events for Harcourts, Christchurch Casino, Anna Sui, Heineken, and Ballantynes to name a few.

Whether you are looking for bouquets and wedding flowers, full wedding ceremony and reception design and setup, or a wedding planner to create the perfect destination wedding in New Zealand, Kim Chan Events can make it happen.
